

# Proactive Undercover Investigations

## Course Description:

This class is a multi-media presentation involving the use of real-life case studies, film, and television as examples to aid in the understanding of the concepts being taught. A thorough introduction or refresher on the tools available to and methods employed by investigators working proactive and long-term cases, the course emphasizes racketeering, narcotics trafficking, money laundering, theft/robbery, criminal street gangs, human trafficking, and other organized criminal enterprises.
